Students are recognized as individuals and therefore the individual and unique circumstances of each case will be assessed when necessary. Students are always encouraged to do their best.</td>

<th>Supporting Positive Behaviour at École Notre Dame School</th>

<tbody>
<tr>
<td>GSACRD schools have adopted a pyramid of support framework for Supporting Positive Behavior and pursuing excellence in learning in all students. The pyramid has three levels of support. The first level is UNIVERSAL SUPPORTS for all students in the school and in a classroom. The second level is TARGETED SUPPORTS where some students who require extra support to build the skills they need. The third level if INTENSIVE INDIVIDUALIZED SUPPORTS for students who require very specialized supports.</td>

École Notre Dame School is committed to creating a safe and caring school environment for all children. We believe that it is the school’s role to teach the values and social emotional skills that will create an inclusive and accepting community and allow our students to be successful within the greater community and later on in life. Safe and caring behaviours are taught, modeled and reinforced for all children. The majority of students will only require universal supports, however there will be students who require targeted supports and some who will need intensive individualized supports. This outlines the general procedures taken when a student requires a higher level of support.

**Universal Supports:**
May include differentiated instruction, positive reinforcement, fair and predictable consequences, celebration of student achievement, on-going praise, open door counseling, teams, clubs, Zones of Regulation, etc. École Notre Dame School has established three positively stated expectations for all students: Be Safe... Be Responsible...Be Respectful...

**Staff Roles at the Universal Level:**
The school will teach, model and reinforce safe and caring behaviour. School staff members will praise students for their contributions to creating a safe and caring environment. Teachers will have on-going assessment and positive communication with parents.

**Parent Roles at the Universal Level:**
The parent is the primary teacher of the student. Success of the student will increase when the parent is actively teaching, modeling and reinforcing safe and caring behaviour. Parents are encouraged to stay informed with the classroom teacher and praise the student for his/her contributions to creating a safe and caring environment at home or school. On-going positive communication or regular monitoring of student achievement by the parent will support the child and lead to higher academic success.

**Desired Outcome:**
With universal supports in place, most students understand and comply with school rules and expectations most of the time. Minor incidents may occur and the student learns from the experience. No further support is required.

**Targeted Supports:**
Targeted supports are added when the student is having difficulty with understanding and complying with school rules and expectations. There is a noted decrease in ability to follow expectations. As with Universal Supports, the focus is on teaching the student positive behaviours and problem solving strategies. Targeted supports include universal supports and targeted supports such as: small group instruction of positive social skills, check in check out, staff mentor, Rotary Mentorship Program, counseling, accommodation checklist, self monitoring of behaviour, individual reinforcement systems, tracking, reward system, consultation with division supports for positive behaviour.

**Staff Roles at the Targeted Level:**
School staff members document incidents and communicate the increase in non-compliance to parents. Staff members work together with the family to support the child to demonstrate safe and caring behaviour. Staff members continue on-going communication and reinforcement of desired behaviour.

**Parent Roles at the Targeted Level:**
Parents work together with the school to support the child to demonstrate safe and caring behaviour. Parents are encouraged to have on-going communication with the school staff members so the desired behaviour is reinforced both at school and at home with consistency.

**Desired Outcome:**
When the child can demonstrate safe and caring behaviour, the supports may decrease. However, some children will always require this level of support. The school and parents continue to teach, model and reinforce safe and caring behaviour. School staff and parents praise the student for his/her contributions to creating a safe and caring environment.

**Intensive Individualized Supports:**
The student continues to have difficulty with understanding and complying with the school rules and expectations even with the targeted and universal supports. The student contributes to an environment that is not safe and caring. Intensive supports include universal supports, targeted supports and intensive individualized supports such as: referral to outside agencies, individual counseling, Wrap Around, alternate programming, positive behaviour plans/ individual program plan, Safety Plan, Educational Assistant support, assessments, one on one support.

**Staff Roles at the Intensive Level:**
School staff members will meet with parents to discuss the present situation. Together, staff members and parents discuss possible solutions for the student. Staff members will continue on-going communication and reinforcement of desired behaviour.

**Parent Roles at the Intensive Level:**
Parents are encouraged to meet with school staff members to discuss the present situation. Together, staff members and parents discuss possible solutions for the student. Parents continue on-going communication with the school and reinforce desired behaviour.

**Desired Outcome:**
When the child can demonstrate safe and caring behaviour, the supports may decrease. However, some children will always require this level of support. The school and parents continue to teach, model and reinforce safe and caring behaviour. School staff and parents praise the student for his/her contributions to creating a safe and caring environment.
